queensland

# Our Mandate

# Our Foundation Assets

## **Barron Gorge Hydro**

66 MW hydro

## **Kareeya Hydro**

88 MW hydro

## **Koombooloomba Hydro**

7 MW hydro

## **Wivenhoe Power Station**

570 MW pumped storage hydro

## **Swanbank E Power Station**

385 MW combined cycle gas turbine

# CleanCo Queensland – Our History to Date

2018

2019

2020

August 2018  
Media release –  
“CleanCo to Make  
Power Bills Cheaper”

“CleanCo will have a strategic portfolio of low and no emission power generation assets, and will **build, construct, own and maintain** renewable energy generation.”

“CleanCo will mean **Jobs in the renewable energy industry**”

“**Initial injection of \$250M**”

December 2018  
Media release–  
“New renewable energy  
generator in place for 2019”

“...Jacqui Walters will be the inaugural chair, ...with Tracy Dare and Ivor Frischknecht as directors.”

“The Government has also **committed \$250 million to CleanCo** to invest in **building, owning and operating** new renewable generation capacity.”

February 2019

“CleanCo appoints first 3  
executives ”

“...Former Infigen Energy boss Miles George is CleanCo's Interim Chief Executive Officer, Geoff Dutailis and Tanya Mills appointed as **Interim Executives.**”

June 2019

“First permanent employees  
commence work”

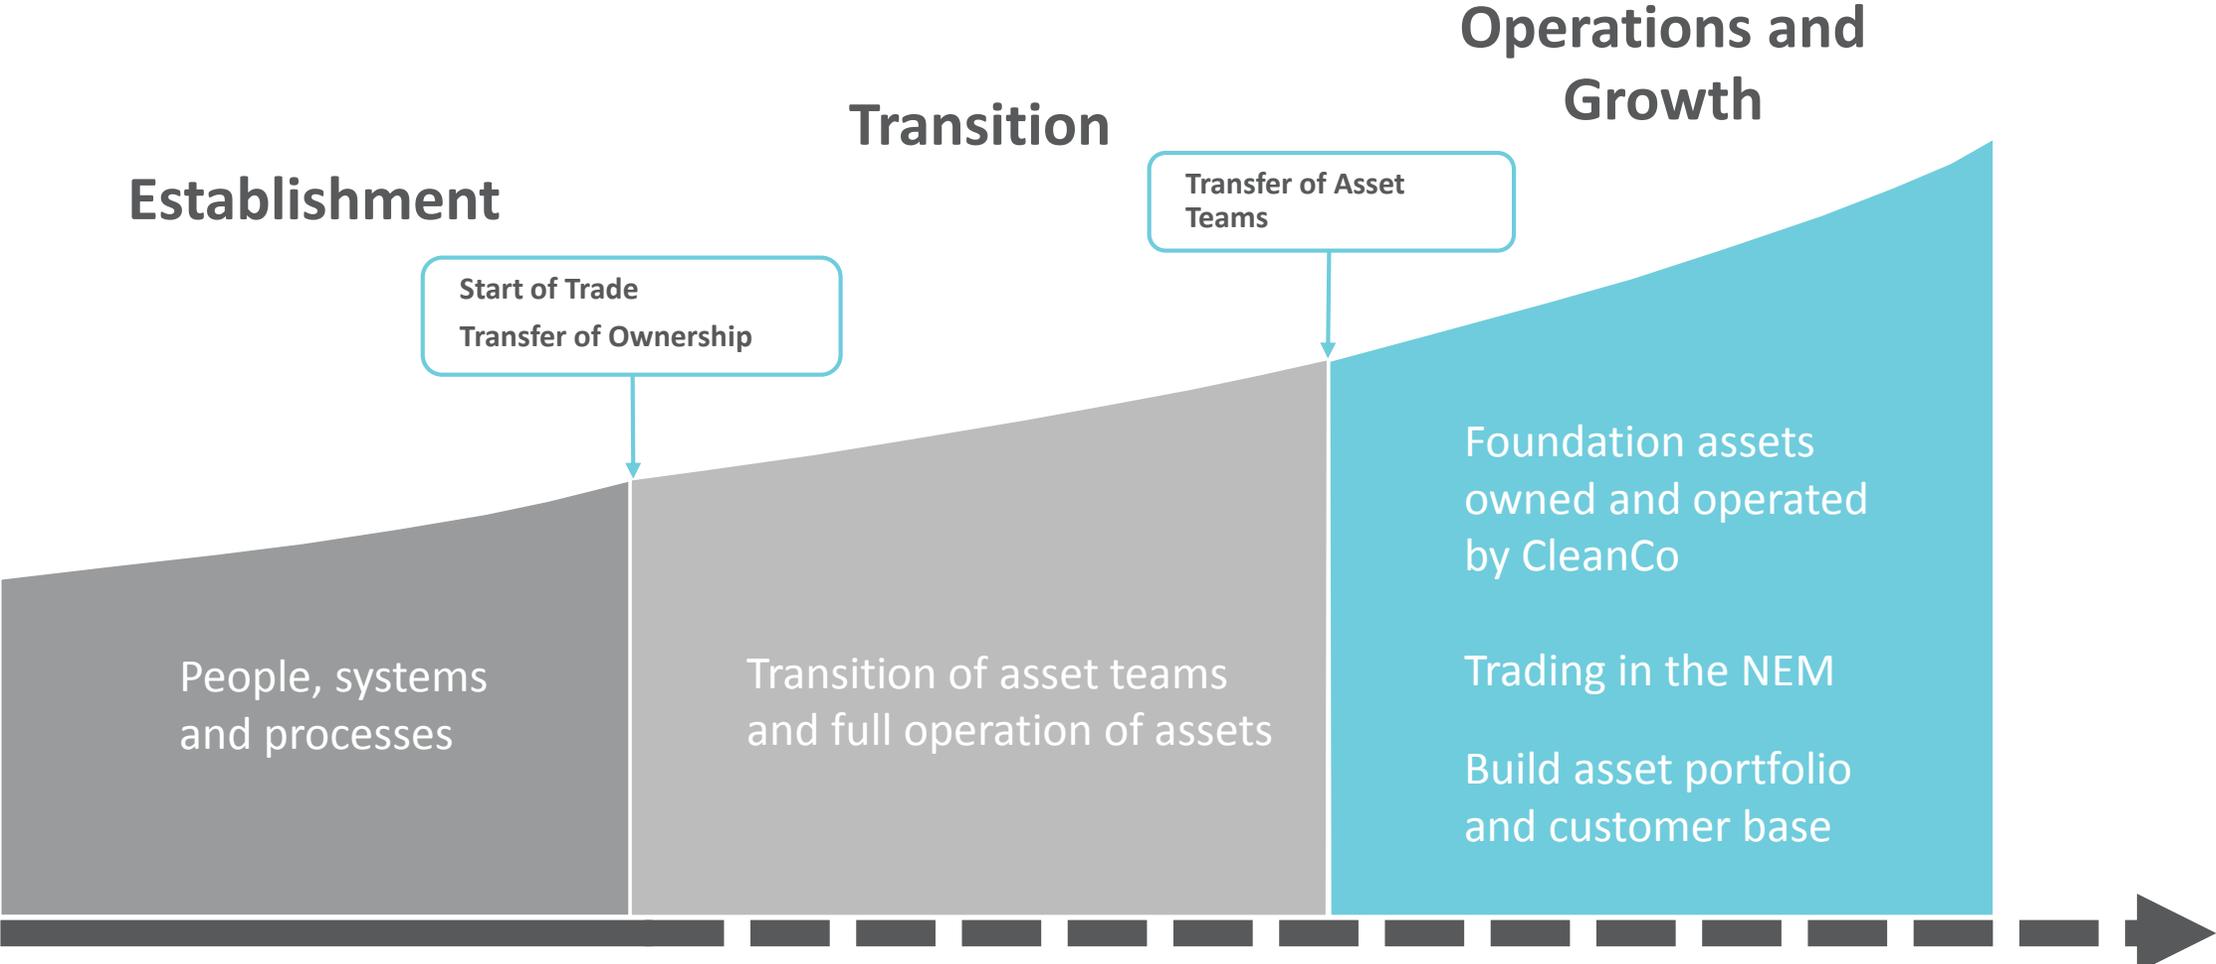

“**CleanCo, Join the team**  
Joining us during this phase in our development, you will have the opportunity to help shape a dynamic and stimulating environment”

July 2019  
Media release –  
“One step closer to our target  
of 50 per cent renewable  
energy by 2030.”

“CleanCo will commence trading in the National Electricity Market on **31 October.**”

“CleanCo will complete the Government's Renewables 400 reverse auction program, bringing up to **400 megawatts of energy** into the market.”

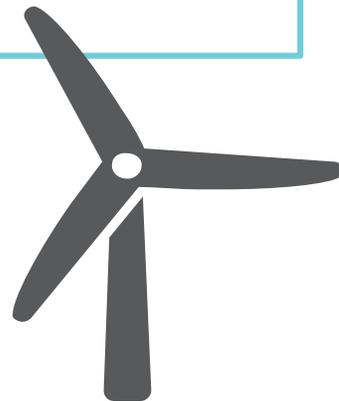

# Phased Establishment

# New Renewables

## R400

- CleanCo will complete the Government's Renewables 400 program, bringing up to another 400 megawatts of renewable energy and storage projects into the market.
- CleanCo is reviewing binding bids from 10 proponents to supply renewable energy and recommend projects to government in early 2020.

## Build, Own, Operate (BOO)

- CleanCo has a government mandate to facilitate the development of 1,000 megawatts (MW) of new renewable generation by 2025.
- We will achieve this by investing directly in new renewable energy generation assets, and by entering into offtake agreements to secure investment in new renewable energy supply.
- This supports Queensland's transition to 50% renewable energy by 2030 and sustains jobs in the energy sector

# October 31: Commencement of Trade and beyond

## Focussing on Our Customers

- Continue to build and develop a customer focussed culture
- Operate a competitive trading strategy
- Progress power purchasing agreements with large scale energy users
- Continue to develop a brand in the market that speaks to customers, our shareholders, and our team

## Investment and Development

- Incorporate R400 reverse auction winners into ongoing business planning
- Commence scoping Build, Own, Operate rollout
- Develop and manage a pipeline of projects to bring to market in the near future
