## LEADERSHIP IN ENERGY

# The Australian Institute of Energy

*The Australian Institute of Energy brings together individuals and companies with interests and involvement in the energy sector in Australia.*

## THE INSTITUTE'S MISSION

Our mission is to promote understanding and awareness of energy issues and the development of responsible energy policies in Australia.

Through a wide range of activities, the Institute encourages discussion and debate on energy issues, promotes research and disseminates information. These activities, including conferences and seminars, symposia and technical meetings, attract speakers of national and international standing and enable Institute members to discuss and debate emerging energy issues and developments in technology.
